

Learning by Play - Bubble Activity

EN5114

In this activity, the teacher may use a straw and soap solution in a vessel and blow air into the solution to develop some bubbles in it. Once they form up, the teacher may ask the students what they see. Students may respond in their mother tongue. The teacher should provide their names as 'bubbles', in English.

Later, teacher may also inform them/ ask students about other different places where they can see bubbles and translate student responses into English.

Learning Outcomes achieved through this Activity:

Through this activity students:

- listen and comprehend certain words in English
 - develop their vocabulary
-
