

Grade 1

Lesson 2: Numbers one to nine

Activity 1:

Writing numerals on sand

Materials: Open box filled with sand, beads, number cards/dot cards.

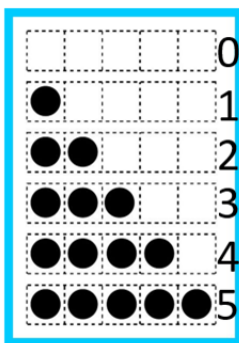

The students are given the numeral and are asked to write on the sand fill it with the marbles or beads. It could be repeated process

The extended activity: the numeral is not shown, but the students are expected to write the number.

ACTIVITY 2: Counters

Keep a lot of bindis, or even coin counters, available for this activity.

On a sheet of paper, draw a grid of squares. Inside every square write a number between 0 and 5.

The child has to see the number and place the right number of coins on it. On the squares that have 0 written on them, the child must not place any coins.

ACTIVITY 3: Number Cups

Materials: Number cups and pebbles(or beads, icecream sticks,etc)

Students need to fill the cups with the given pebbles based on the cup number. Students need to fill all the cups with respective numbers and must leave the zero cup empty every time.
